A political analysis of the goal of the Martyrdom Operation

GOAL OF THE OPERATION:

The message that Mujahideen wanted to relay through this FIRST  
Martyrdom operation to the World and specifically to France can be  
summarized in one sentence: "Take Your Hands Off Islam."

Even though the operation was not completed to the last stage as  
was planned - By the Will of Allah - the French have realized for  
the first time that their support and stand with the apostate illegal  
un-Islamic regime in Algeria and its continued support and  
participation in the crimes against Muslims in Algeria will not pass

without punishment.

A punishment that the French will not imagine. Mujahideen have the resources, the personnel, the ability and the power to do that. The operation will be imprinted forever in our Islamic history.

#### THE PLAN AND THE DEMANDS:

Al-Jama'a Al-Islamiyah Al-Musalaha put a set of demands and did not negotiate with the apostate illegal regime since it is nothing more than soldiers and military men who receive their orders from the French Crusaders. Mujahideen demanded to negotiate directly with French authorities, the real decision makers.

In calling for the release of our imprisoned brother Abdel Haqq Li'aydah and Shuyookh Abbas Madani and Ali Belhajj from prison, the demand proved beyond doubt the unity of Mujahideen. In calling for the release of Dr. Omar Abdel Rahman and Mashayikh Salman al-Udah and Safar Al-Hawaly, it showed the main principles of Islam adopted by GIA in aiding Muslims everywhere and in carrying the message of Jihad to the whole world.

Finally GIA had political demands from France by exposing French support to the regime and calling on France to stop harrasing Muslims living in its lands.

#### SEQUENCE OF EVENTS:

During 54 hours the whole world stood in tension and in shock at this operation carried out by 4 Martyrs who loved death and had the noblest manners of men in standing fast and firm and being truthful to Allah and the believers.

#### How Did They Reach The Plane:

The four youths were part of the "Signatories with Blood" group of GIA, they arrived at the plane in Algiers airport in a small car, and they wore the airport Police uniform. They boarded the plane carrying their weapons along with bags containing equipment and explosives which weighed more than 4 Kg. Mujahideen had contacts at the highest levels who facilitated their entry to the plane position.

#### Mujahideen Inside The Plane: (Saturday 12/24/94 at 11:54)

Once on the plane they introduced themselves to the crew as security police which was checking identification cards and passports. After closure of plane doors, Mujahideen announced that the plane was being Hijacked.

#### Execution of an Evil:

Mujahideen carried out an execution of a security officer of the regime who was planning to spend the Crusaders holidays with his masters.

#### Presenting Demands:

Mujahideen announced their demands which were the communique of GIA (mentioned in Part I of Islam Report). They called for convening of a press conference. Mujahideen then released 60 women, children and senior people, and two groups of passengers were left:

Group 1: French citizens who defied Mujahideen repeated orders to leave the Muslim land of Algeria.

Group 2: Traitor Algerians who were travelling to France to spend the Christian holidays in Paris.

#### Another Execution:

In the first hours of the negotiations, the economic advisor to the Vietnamese embassy was executed after the French failed to negotiate in a timely manner.

#### Confusion in Numbers:

Originally the regime claimed there were 280 passengers, 60 were released, 2 were killed, that left 218.

At 7:00pm, the media announced 7 passengers were killed!

At 9:30pm, the French diplomat, a passenger, was killed leaving 217.

On Monday everyone was surprised when the media announced that there were 173 left on the plane. That means 44 passengers suddenly vanished. The apostate minister of Interior of the regime explained that these 44 people failed to arrive at the airport and did not originally board the plane.

Most likely there were many passengers who were killed in Algeria before the plane took off to France.

At 5:00pm French media announced the killing of another French passenger at Marseille air port.

Head of the French special forces said hundreds of bullets were fired by Mujahideen. French interior ministry said 9 special forces were injured. Most probably they were dead, and the French may announce them later as death of injured personnel.

#### Faith Stronger Than Emotion

The young Mujahid Abdallah Ali Yahya told his mother, who the authorities brought to pressure him into surrendering:

"We will meet in Paradise My mother!" and on the second day the authorities forced his mother to ride in a military car which drove towards the plane, the Mujahid Abdallah shot many bullets in the direction of the car which was planned to raid the plane and was loaded with heavily armed soldiers. The Martyred Mujahid had stronger belief in Allah than his emotion, and the authorities were planning to use his mother as a human shield to raiding the plane thinking that he would not shoot at the car that she rode in.

#### French Special Forces Were in Algeria:

They arrived early in the incident, and they completely took control of the decision making. Another unit was dispatched to Spain just in case the plane would land there.

When the plane landed in Marseille, another plane carrying the special forces landed with it.

#### Two Technical Errors:

Mujahideen could have avoided two errors which would have saved precious time (as time is crucial for strength of Mujahideen):

First they announced the Hijacking after closure of doors and before the ladders were moved off the plane.

Second: they landed in Marseille, under the reason of taking on more fuel, although the plane had enough fuel, they could have asked French authorities to refuel it in the air without landing. Since they were half

way, Mujahideen may have wanted to fill up the tanks of the plane for later blowing it up over Paris (please read below). These will be lessons learned for future operations.

#### Martyrdom Operation:

We will not know for years what really happened in Marseille, and the media outlets failed to get accurate information on the matter. The media concentrated on showing the French special forces as stealth and ghost-like killing machines which see and can not be seen. That was to reduce the effect of the strength and determination shown by Mujahideen and the power of their capabilities. Only Jealousy and envy made media show these special forces as stealth ghosts.

The escape of the plane and its passengers was not because of the bravery of these special forces, but because of the Will of Allah, the four Kg of explosives did not detonate.

#### AL-MURJIFOON (Rumour Spreaders) HADDAM AND KABEER:

Anwar Haddam: Initially Haddam condemned the operation as the making of French authorities! and accused the regime of trying to tarnish FIS image. Later he made himself a spokesman for GIA and denied that GIA was responsible for it. We conclude that Haddam has no relationship with Mujahideen and he is living in complete Coma of what is happening in Algeria. We do not know why Haddam quickly talked to the media despite the fact that all other politicians waited and kept silent on the matter until the dust clears.

It is now well-known about Haddam that he likes to be shown and interviewed by the media, and that his stories lost credibility because of his continued inaccurate representation of Mujahideen in order to please the West. Mujahideen have no other explanation to Haddam's actions but consider it as a stab in the backs of Mujahideen.

Rabih Kabeer: The statements of Kabeer were no different than Haddam; he condemns every Jihad act that is against Europe.

#### CONCLUSION:

The GIA takes responsibility for this first Martyrdom operation and for its original plan to blow the Air France with its previously mentioned two groups of passengers over Paris.

GIA wanted to say clearly that it gives no care to the enemies of Islam wherever they are and however strong they are.

This was also a message of warning to the enemy French Crusade, that Mujahideen are completely ready to battle it openly.

In conclusion:

1. The Martyrdom operation was a victory to GIA who is the only legal and Islamic side in the struggle against the regime and its supporters. (GIA is made up of FIS and all other Islamic groups).

2. The operation is the start of a new phase which is the Martyrdom phase in which the enemy will be completely overwhelmed by the attacks. This is a result of an organized Mujahideen army which now includes a huge number of Muslim youths.

3. There was a media shock and the operation was on the headlines.
4. Security Vanishes: for even the French in France. Air France also will suffers major losses as a result of loss of confidence.
5. Disability of the regime who is supposed to protect its French masters. The operation publically humiliated Zeroual and L'imary and showed them as obeying soldiers of France. The regime lost its viability with Europe.

FINALLY:

THIS VICTORY WILL NOT MAKE US FORGET TO MENTION THAT  
THE WHOLE VICTORY WAS BECAUSE OF ALLAH THE ALMIGHTY.

FROM HIM WE GET OUR STRENGTH AND ON HIM WE RELY,  
HE IS THE ONLY ONE WHO CAN GIVE US VICTORY, FOR HIM  
IS ALL THANKS.
