

05-CR-493

Your Honor,

Lets save each other a lot of time here. I'm fully aware about Mr. Gurganus's boss planning to run for Congress. Dont think for a minute that I would permit this court to railroad me for publicity for him. I have a Federal right to my two hearings and to a dismissal with prejudice once they are heard. They will be heard and I expect that hearing within a week. This trial will not be delayed and I will be going home. Hold the hearings this week, remove the press, Acquit me and call it a day. Legally there is no choice. Ignore my rights and we both know this case is going to appeal to win anyhow. Why do you choose to waste hundreds of thousands of dollars on this scam?

Philadelphia is scheduling appeals on my habeas motions. I wont be convicted no matter what new laws you break. Give it up, send me home now. You yourself know for a fact that I will embarrass the FBI and Ive already won. Jury choice in a real court wont convict me, so how will yours? Think it over. I demand my hearings within a week.

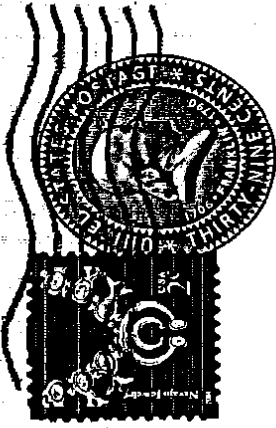

Sincerely,

Michael Curtis Reynolds
