

Bismillah I. Rahman I. Rahim

Assalam alaykum akhi Dawud, may this find you in good health. You will receive this from either a man named Eric as legal work as he is a lawyer or by Solans he will have a tattoo depicting a federal officer with blind fold getting shot by another man with gun, and shamrock on sleeve in a fight with flag in background. This is my professional criminal contact to pull strings for we have mutual interests. I ask you give him contacts so we can take the Eastern coast down and ultimately the U.S. government. The contacts should include people from Khoreisan to control influx of opiates. We will flood the market for a year or two, then shut it down causing law enforcement to hemorrhage. In the chaos establish our strategic points before shut off of supply; i.e. military posts and such. Use the proletariat and criminals to our advantage possibly employ emp to cut their communications, leave no quarter. Place their juicy heads for display. The Victory will be ours. Use any resources possible, maybe ask for help on judoprot.com should you be able to get funds to help Solans much appreciated. His men will give us some insight some strategy if you will. We will remain in contact with him. Surely we will persevere and win. In shaa Allah Sabr, Takwak, Qadrullah
