Participants: 1) Daniel Boyd 2) Witness

16:01:20 - Boyd tells Witness that they are going to have some down time soon and that they need to take one of those days or two of those days and go shooting, to get some practice.

16:02:21 - Boyd tells Witness that now he sees some of the realities of what is going on in the world and the realities of what is at stake out here. Boyd states that the fact of the matter is, is that these dope boys, they be carrying a lot of money. Boyd states that they should snatch it from them and use it for the "sake of Allah." Don't go around grabbing it and feeding your family or something. If you take it, send it to mujahidin or somebody with it. Boyd asked Witness if he still knew people like this (drug dealers) and if the witness knew how to find them. Boyd stated he doesn't want no chump. He wants ten grand and up. [end 16:02:56]

16:04:17 - Boyd tells Witness that he doesn't want to get any one in trouble or is he trying to be stupid before getting out of here, you know. [end 16:04:23]

16:04:35 - Boyd and Witness discuss gambling and bookies. Boyd warns Witness not to think like a gangster. Boyd tells Witness that the Witness is a Muslim and that it means that the Witness has submitted to Allah. Boyd stated that it is their job to clean this mess up. Boyd states that these people are at war with the Muslims, in every shape and form and they have a corrupt society and a corrupt way to corrupt society... that is what they do. They corrupt people, innocent people. You know islands like Jamaica, Hati, Creole - they destroy it with capitalism and democracy. If they can't destroy you, they will bomb you to pieces, take your women and children and rape them. It's terrible. Anything that can diminish their ability, becomes not only an effective way to fight them but an obligatory way to fight them. So if it is taking their ammunition, their money, and bringing it to those who will use it "for the sake of Allah," especially like banks and Wells Fargo trucks, and these kind of things. Boyd states, we, some of us, have resourceful brothers who have talked about this for some time and it's hard to find players that

think straight like that. Some truly have not put Allah first. They put the idea in their head that Allah is first but they haven't really put Allah first. [end 16:07:28]

16:07:38 - Boyd tells Witness that it is something to be seen. He saw a cargo ship go down in Khost, Afghanistan. Boyd states that he was on guard duty and he saw a Stinger take down a cargo plane that was full of ammunition. Boyd states that he said "Allahu Akbar" and that it was something to be seen.

16:08:36 - Boyd tells the witness to put your mind on thinking and that anything you can think of, to run it through - can I do it for Allah or is it not for Allah? If it is good for Allah, then can I do it without harming good people. Understand? Hitting the Wells Fargo trucks and banks, that money is insured. They have to pay the people who had that money. Those people don't get hurt. The banks get hurt and the banking system is the main ammunition for the Kuffar. It is the main ammunition. Boyd states that he was hitting the banks in Pakistan. That is how I got in jail over there - some brothers and I. We would get 30 to 40 thousand rupies and give it to the mujahidin. We were also young and dumb and no thinking straight. Here, we have lots of talent, lots of experience, lots of brains. I know this, you get in and out of a bank in 3 minutes or less, that's a good deal. You get in and out in 2 minutes or less, some of the cops can't even react. Even if they push the silent alarm the moment you walk in the door, which isn't the case because the first 20 seconds you are getting prepped. You walk in the door, get your position and it hits. Boyd tells the Witness just to put it in his mind. Boyd states that this is just talk and that you have to talk before you can walk and that you have to walk if you are going to put Allah first. Boyd then states that you must be ready for the sake of Allah. [end 16:10:07]
