جماعات متطرفة اخرى

Libya :

The Correlation between the extremists in the
Eastern region, Al Qaeda core, Al Qaeda in
Islamic Maghreb and the extremist groups

accession to joining the Al Qaeda organization in Islamic Magreb, the role of the terrorist is no longer confined to the local level but it has become a grave threat on both the regional and international levels including the North African States and CEN SAD space as an initial stage to establish the Caliphate, Al Qaeda in Islamic Magreb has become the pivot around which all radical groups in the Magreb states that are linked directly or indirectly to Al Qaeda core, revolves such connections are related to camps in Algeria and North of Mali.

The organizational structure is composed of four key regions: Central region which consists of Alger, the capital of Algeria and its outskirts Western region that encompass West of Algeria and Morocco, Eastern region which includes Tunis Libya and southern region which includes south of Algeria and Cen Sad State members.

Radicals in the Eastern Region

The organization has worked in order to establish logistic support cells for the recruitment of Libyan extremists to be send to Algeria for training. Since the second half of 2006 the number of Libyans acceded to the group reached 70 individuals that enable them to create a battalion and name it the Islamic Martyrs Battalion with the aim to establish an emirate in Libya, The Martyrs battalion participated in operations that targeted the Algerian Army in addition to the battalion's participation in most foreign kidnappings and abductions which took place in northern Mali and Niger.

On 31-8-2008 a cell of 4 elements belonging to the organization infiltrated the western border of Libya via the Libyan city of Ghadames where they were confronted by the Libyan security elements the operation led to the killing of three and the arrest of one cell comprised of four (three Libyans and one Algeria national) the Libyan who was arrested during the operation confessed that the mission of the cell was to target western interests in Libya.

In Late December 2009, two elements named Abdulla Habil and Salim Younis Mansuri of the organization succeeded in the penetration of the Libyan Western Border through the Ghat town, the first one was arrested in Ghat town the latter was killed on 30-11-2010 in Derna city during his resistance to law enforcement authority.

On 14-11-2010 Abdel Aziz Younis Massoud (aka Muqrun) the leader of the Libyan radicals group accompanying by Mohamed ben Kayal penetrated into the Libyan town of "Ghat" where they were chased and killed.

The Libyan radical group of Al Qaeda in the Islamic Magreb are from the eastern area of Libya, they have established cells composed of the Libyans who

were detainees and released, they contacted them by Thuraya mobiles, Algerian and Mali telephones, during their telephone conversations they used ciphered language with the aim to confirmed information has indicated that the Libyan radicals elements at al Qaeda in the Islamic Magreb who were present in Northern Mali have entered Libya and have joined the Islamic emirates that were founded in the eastern parts of Libya during the armed rebellion, in addition that a large number of Tunisian and Algerian radicals infiltrated the Libyan Tunisian and Libyan Algerian borders and joined the terrorists in the Western part of Libya it is worth noting that on 23-3-2011, some Algerian and

were detainees and released, they contacted them by Thuraya mobiles, Algerian and Mali telephones, during their telephone conversations they used ciphered language with the aim to confirmed information has indicated that the Libyan radicals elements at al Qaeda in the Islamic Magreb who were present in Northern Mali have entered Libya and have joined the Islamic emirates that were founded in the eastern parts of Libya during the armed rebellion, in addition that a large number of Tunisian and Algerian radicals infiltrated the Libyan Tunisian and Libyan Algerian borders and joined the terrorists in the Western part of Libya it is worth noting that on 23-3-2011, some Algerian and Mali radicals attempted to penetrate the Libyan border area in Ghadames, they were chased by the Libyan armed forces one of those exploded himself during this operation, the Algerian army arrested two radicals who were in the process of the infiltration of the Libyan Algerian borders.

Some Libyan Radicals located in Northern Mali in addition to some of Al Qaeda in the Islamic Magreb have traveled to the Eastern areas of Libya which is known for its rugged topographic relief that would make it a safe heaven for them enables them free movement and to carry out easily the process of recruitment and polarization of individuals, subsequently it enables this organization in a short period of time capable of launching terrorist operations not only in Libya but beyond Libya. We have confirmed information that those radicals brought with them into Libya, the French hostages who were previously abducted in Niger and Northern Mali.

Confirmed information indicated that Mukhtar Bel Awar was seen North of Agades during last two weeks of this month in a convoy of vehicles from which they headed towards the Libyan border.

The appearance of Abuyahya alLiby one of Al Qaeda leadership and his statement about the events taking place in Libya in which he emphasized the connections of Al Qaeda and the participation of its elements in the current events taking place in Libya, we also have confirmed information that radical elements of (Egyptian, Tunisian, Algerian. And Asian origins have participated in Military operations against the legitimate force in places like (Brega, Ras Lanuf, Ben Jawad) a great number of those mentioned elements were arrested, number similar to the ones found on Al Qaeda fighters in Afghanistan and Iraq, some of those elements made telephone contacts with T.V channels covering the events.

On 31-3-2011, the Algerian newspaper named (Al NAHAR) published an article in which it stated that the Radical (Atiya Abdul Rahman aka, Jamal Ibrahim Ishtiwiy Al Misraty a leading figure within Al Qaeda has said in a video statement issued by (Al sahib) website that affiliated with Osama Ben Laden in which he warns the western states and in particular the United States of America of the contemplation or slightest thinking of attacking or intervention

in Libya. He also threatened dire consequences and he called for the establishment of Islamic emirate in Libya
The cells affiliated with al Qaeda in the Islamic Magreb present in the eastern part of Libya sent terrorist elements to Iraq in which they carried out criminal

operations, the latest of which targeted a church in Iraq. After they gained control of cities like Benghazi, Derna, Bayda they established the so called Islamic emirates in the above said places or cities they tried to do so in some other cities but with no avail.

We observed all the patterns of all of the extremists adhered to different ideologies in the armed rebellion being led by elements who belong to what is the so-called "Moslem Brothers" and the LIFG the organization of Islamic Assembly and other elements adhered to expiatory ideas related to Al Qaeda organization.

Moslem brothers group seeks to achieve the Caliphate state resembling in this matter other Islamic extremist groups. However, the Moslem Brothers have succeeded in hiding its strategic goals to achieve the Caliphate state by its careful use of the principle of Toqia by not revealing their true nature and demonstrating that its main political goals are political reform building democracy and free press and media. In so doing, the organization of emirates in the western countries which opened the way for this organization to freely exercise its spoken activities as a political opposition. The Moslem brothers could managed this token, create a wide network of international relations in Europe in the Gulf States.

The steps taken by Libya in the area of free press and the institutions of civil society seeking to achieve wide political reform and was initially applied deprived the Moslem brothers of the opportunity to act. Accordingly Moslem brothers had the feeling that these policies will prevent the achievement of its strategic goal in building the Caliphate state. As a result they worked quickly coordinating with other Islamic groups to hamper these steps being launched by Libya in addition to the rapprochement between Libya and the Western countries and with what is the so-called opposition in exile of their different groups to achieve the pre-emptive strike to stop the Libyan steps. To achieve this, the Moslem brothers benefited from the procedures taken by Libya in facilitating the return of the Libyan citizens living abroad and the organization started to penetrate their elements into Libya who could recruit many elements from inside. These groups benefited also from these procedures especially the elements of the Libyan Islamic fighting group (LIFG) being settled in the UK and Switzerland and who have changed their group's name to the Islamic Group for Change and Reform. A large number of them had returned to Libya after they have revised their religious beliefs after they have

beliefs which were announced by the leaders of the organization by the leaders of the organization who were in custody. In coordination with the so called Ali Sallabi (Moslem brotherhood) most of its elements and leaders were released and

To be sure the elements of the L.I.F.G have played the major role in creating the scdition among the people of the one nation taking advantage of the international relations network of the Moslem brotherhood including opposing states political organizations and institutions.

The participating elements which had the major role in causing the armed violence some of whom for example only Yousuf Haroun Al Shuheibi and Yousuf Al Sallabi both from Benghazi under the organizing and coordination

beliefs which were announced by the leaders of the organization by the leaders of the organization who were in custody. In coordination with the so called Ali Sallabi (Moslem brotherhood) most of its elements and leaders were released and

To be sure the elements of the L.I.F.G have played the major role in creating the sedition among the people of the one nation taking advantage of the international relations network of the Moslem brotherhood including opposing states political organizations and institutions.

The participating elements which had the major role in causing the armed violence some of whom for example only Yousuf Haroun Al Shuheibi and Ussama Al Sallati both from Benghazi under the supervising and coordination of Dr. Ali Al- Sallabi now residing in Qatar also Zayed al Furjani from the Islamic Organization Assembly returning from the UK and now located in Benghazi and the so called Ahmed Hamouda now in Benghazi. In addition there are elements from Al Qaeda, the so called Abdel Hakeim al Hassadi and Sufiyan al Hassadi both from Derna, the later was detained in Guantanamo Salah Abu Obba from Zawiya returning from the UK, Jamal el Mabrouk Abu Shaala from Benghazi returning from the UK, Khalifa Ahmed al Haji from the Al Jabal al Gharbi Western mountains returning from the UK, khaled Zaroug and Ali Taghdi, aka Saleh Aka Saleh Abu Sulayman was in the UK and returned by illegal immigration to Libya and the so-called Jamal al Mabrouk Abu Shaala from Benghazi returning from the UK and they all came to Libya being entrusted to carry out the mission and financed by their colleagues in the organization in the UK and to coordinate with other extremists inside Libya to conduct the operations of sabotage in different parts in Libya.

Mostafa Abdel Jalail the previous minister of justice sought during the time of his position to release all the prisoners who were charged with extremism and compensating them financially making use of his post and in coordination with the Moslem brothers represented by Ali Al Sallabi. We should remember here the previous event by Abdel Jalal himself when he raised the issue of these prisoners last year during the general congress meeting including the release of these prisoners (charged with terrorist activities) and he succeeded in releasing them in stages, signed by him as the head of the judiciary agencies.

What is being named the National Council is merely an external façade for the extremist groups being under its domination to deal with the external world through this council was not being elected on any basis democratically nor tribally or socially . It is important to note that the military leaders in the Eastern region were resisting these extremists in the beginning but because of the pressure exercised on them by the extremists threatening their families and wives children, they were forced to issue their declaration to adhere to them.

the so called Abdul Jalil to offer the administrative and materiel resources to the rebels. Also there are some elements from the opposition have visited Lebanon including Mahmoud Shamam and Faraj Eshaa to establish contacts with the Aml movement and Hizbollah who visited Iran. To verify the leader in the Lebanese Hezbollah Ibrahim Dawood made a phone call on 14-03-2011 with Mostafa Abdul Jelil using the phone 009617420050 in order to provide fighting elements and send them to Benghazi. Also he made other contacts with Akram Ashames an element from Hezbollah in America.

The extremist Salah Abu Obba who belongs to the so called LIFG confessed that the leading elements being resident in the UK are in contact with the other saboteurs in different places in Libya sending them financial support and providing them with fighting elements and helping them enter Libya illegally enter Libya secretly by illegal ways. These elements include:

- 1- The extremist Muhamed Mohamed Ben Hammadi aka Abu Hajer, resident in the UK on contact with Salah Bu Oba in Zawiya and Jamal al Mabrouk Abu Shaala and Khaled al Zaroug el Taghdi located in Benghazi. He is coordinating with so-called Hassan al Amin who is in charge of the website Libya al Mustaqbil
- 2 - The extremist Ismael Ibrahim Kamouka aka Abu Suhaib resident in the UK
3. The extremist Anecs Meloud al Ridda el Sharif aka Talal and Abel Mannan resident of the UK
E of the
- 4 - The extremist Abdul Baset Fadeel Al Zwai alias Abdullah Mansour located in Britain. He collects money and send it to terrorists in the Jamahiriya
- 5 - The extremist Mohamed Muftah Mohamed Bunni alias Abu Sariah located in Birmingham. He collects money and sends it to terrorists in Libya
- 6 - The extremist Bashir Ibrahim al Faqih alias Abdul Rahman al Faqih soon to be appointed Amir of the organization. He is in contact with terrorists in Misurata
- 7 - The extremist Abu Kassem Ali Mrehil Al Aiaatt al Swaiy alias Akasha one of the elements who induce sabotage. He is in contact with the terrorists in Al Jabal al Gharby area - Western Mountains

6

8 - The extremist Riad Mohamed Abdul Karim al Shibly located in Manchester one of the elements calling for sabotage

9 - The extremist Al Taher Mostafa Mohamed Nasouf alias Al Qaqa one of the elements who instigates for sabotage and collecting money

10 - The extremist Ziad Ali Hashem alias Abu Jabal + Emad, he plays a role in

8 – The extremist **Riad Mohamed Abdul Karim al Shibly** located in Manchester one of the elements calling for sabotage

9 – The extremist **Al Taher Mostafa Mohamed Nasouf alias Al Qaqa** one of the elements who instigates for sabotage and collecting money

10 – The extremist **Ziad Ali Hashem alias Abu Jabal + Emad**, he plays a role in communication with the terrorists in Libya located in Manchester

11 – The extremist **Aiman al Gariani** he collects money and sends it to terrorists

12 – The extremist **Abduk Munset Muhamed Husain al Emam alias Othman Al Dernawi** located in London. He has connection with what is called "Emarat Derna" spokesman of what is called Group of change and reform which was known as LIFG

13 – The extremist **Abdul Razzak al Sherif al Osta alias Muawaya + Osama** located in London and his connection with the extremists in Tripoli

14 – The extremist **Jaber al Areefi alias Abu Salamah Sabry** located in Manchester. He is in contact with the group of sabotage in Tripoli and the Western Mountains

15 – The extremist **Hassan Abdullah Sleman hammudah alias Ali Amin Saleh** located in Britain. He urges for conducting sabotage in Zliten and Misurata

16 – The extremist **Ali Njeh Faraj Sadallah alias Abu Yurr** located in Britain. He seeks to enter Libya with the aim to participate in terrorist actions

17 – The extremist **Atiya Ahmed Mohamed Jaleel alias Al Najakhi** located in Switzerland. He is in contact with elements in his home town "Al Khums". They arrange to conduct terrorist actions

18 The extremist **Khaled Abdul Qader al fathi alias Salah al Sabahawi** located in Switzerland

Among the elements who played a great role and coordinated the terrorist actions and events that place in the city of Benghazi and the eastern part of Libya in general are those elements called Ansar Allah and are located in Britain

Here are their names:

- 1- The extremists Yousuf Mahmud Al Hweij al Qamatti alias Eisa Abdul Qayum
- 2- The extremist Abdul Baser Haround Al Aheheibi alias Qaiss
- 3- The extremist Abdullah Ali Omar
- 4- The extremist Abdullah Ali Omar al Shibli

It has been confirmed through investigation with some elements who participated in the rebellion that about 150 elements from different nationalities who had been recruited the terrorists leaders three months earlier.

The elements received training in farm at the outskirts of the city of Benghazi in an arca known as Al Talhia then they were distributed throughout the cities of Libya. 32 elements of this group were charged with terrorist actions in Tripoli. The 32 elements were divided into 8 cells of 4 elements. They were given missions of generating and raging hatred among the citizens and pushing them to uprising against the state and the security personnel. They also conducted certain operations represented in shooting at citizens passing through the streets shooting innocent people.

The extremists also conducted crimes against humanity by killing the military and Police prisoners in what is known as Emarat Baida and Emarat Derna executed 22 soldiers who were arrested by slaughtering and cutting off parts of their bodies following the method of Abu Mussab al Zargawi. The terrorists they conducted operations such as abduction and rape of women. They filmed these operations and distributed them via Internet.

We would like to stress here that Iran as a state and Hezboallah and Hamas are strongly calling upon some forces to engage in what is happening in Libya in particular fighting training and jamming the means of communications. You can verify the stances of the above mentioned state and organizations by the mere watch of Media and TV channels belong to them and that express their views.
