NORTH AMERICAN ISLAMIC TRUST (NAIT)

The 23rd and 24th Annual ISNA conferences provided opportunities for the extreme fundamentalist Muslims to meet with their supporters. [redacted] in reporting on both conferences observed members of the ISEC meet with extremist Black Muslim leaders as did Iranians from the MSA-PSG organization. [redacted] reported during the 24th annual meeting that the MSA-PSG provided its members a publication entitled, "The Manifest of the Islamic Revolution and the Massacre in Holly Mecca," which contained a message from the AYATOLLAH KHOEMEINI.

The annual conferences are used for both religious and political purposes. The political purpose is to further the Islamic Revolution, which includes the providing of anti-U.S. and Israel publications, and publications that support the war effort of Iran in the Iran-Iraq war and the Persian Gulf.
