MEMO TO FILE

Please refer to previous memo dated 9/26/86.

Client failed to respond to final request of 1/15/87 for CA-1032. Memo to Director for forfeiture case prepared. On 3/4/87, this CE was performing contract duty when a man came in with a CA-1032. CE recognized claim number and asked the man to wait to talk about case. He indicated he was disabled and CE asked him to wait 5 minutes. He reluctantly agreed. When CE spoke with man he indicated he was Herbert Bray, grandson of Wrighty Bray. CE told Herbert that Wrighty's case was in the final stages of forfeiture for non receipt of CA-1032. He indicated that grandfather was old but proud and would not let any family members assist him with his paperwork until it had stacked up and then he would call grandson or granddaughter to assist, which is why he was now bringing CA-1032. CE asked man where was client. He indicated client was staying at home of granddaughter. CE asked should a change of address be issued. Man indicated client would not sign C.O.A. as he still had home where checks were sent. CE asked man for telephone number where client could be reached.

The man hesitated and indicated he did not know the number by memory. CE told man that he could call the office back with the number, but he must do it by close of business 3/5/87. Man told clmt that family was to have a meeting on Sunday 3/7/87 to determine where clmt would be staying so someone could assist with his affairs. Man left.

Near close of business 3/5/87, man had not called. CE consulted with SEE concerning the above facts and indicated her reluctance to stop fictitious action without having talked with the clmt. SEE indicated legal submission of CA1032 was sufficient to stop fictitious action but CE could refer case to OIG for investigation. ~~SEE informed~~ CE indicated to SEE that within 30 days the request for medical would be overdue and a 2nd opinion referral would have to be made. SEE inquired as to the date of the last medical submitted. CE looked through the file and last medical dated 1975. There was a page stuck to this report. CE pulled apart and statement on this page (final page of hospital records) indicated clmt EXPIRED 12/1/75.

CE and SEE reviewed medical to be sure it was

Dr. Wright Gray, Medical referred to right leg stamp, ~~which~~ <sup>and</sup> ~~is~~ <sup>is</sup> ~~not~~ <sup>is</sup> heart condition, which is referred to as CA-SCD. Additionally, correct claim number is typed on hospital records.

Checks are being stopped immediately. The last check issued will be traced for <sup>the</sup> ~~signature~~ <sup>signature</sup>. If Herbert Bray of Arizona inquires about this case, attempts will be made to (a) get a statement ~~stating~~ <sup>stating</sup> them as representative and (b) obtain their phone number and address.

Case is referred to OIG for further action.
