Subject: Update Meeting with SETF

Wa'el et all,

I'm afraid SETF has been delinquent in keeping you guys regularly updated, but as you know, things on the ground are changing so fast we are always playing from behind. I think it would be useful for either Mouaz or I to come in and meet with you guys, update you on our activities, and get some additional clarity on what State is hoping for vis-a-vis a few issues, such as potential Islamic Front engagement and recent clarifications by State that Assad may be a part of a transitional government.

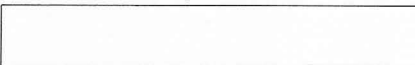

I realize that this email is coming right before the holidays, but would it be possible to get on a call late this week or Monday, and perhaps plan an in person meeting after the holidays? Please let us know what works from your end as Mouaz and I both feel that we would benefit from being in touch with you guys more regularly.

Best,

Evan
